

Barbara Malkin Hollman: Thanks Mike for all your work to get us all together again. I have lived in Tenafly, New Jersey for the last 22 years. I received a BA in Biology from Hunter College and an MA in Education from NYU, taught Biology for five years, then received an MSW from Adelphi University and later, a postgraduate Certificate in Psychoanalysis from Manhattan Institute of Psychoanalysis and Psychotherapy. I am still in full time private practice in psychoanalysis, psychotherapy, and couple psychotherapy. I have a house in Boynton Beach, Florida, and love spending time there. I have four year old twin granddaughters, and a four year old grandson and a two year old grandson.
