

It is with great sorrow that I report the death of Patricia Gerson Davis,

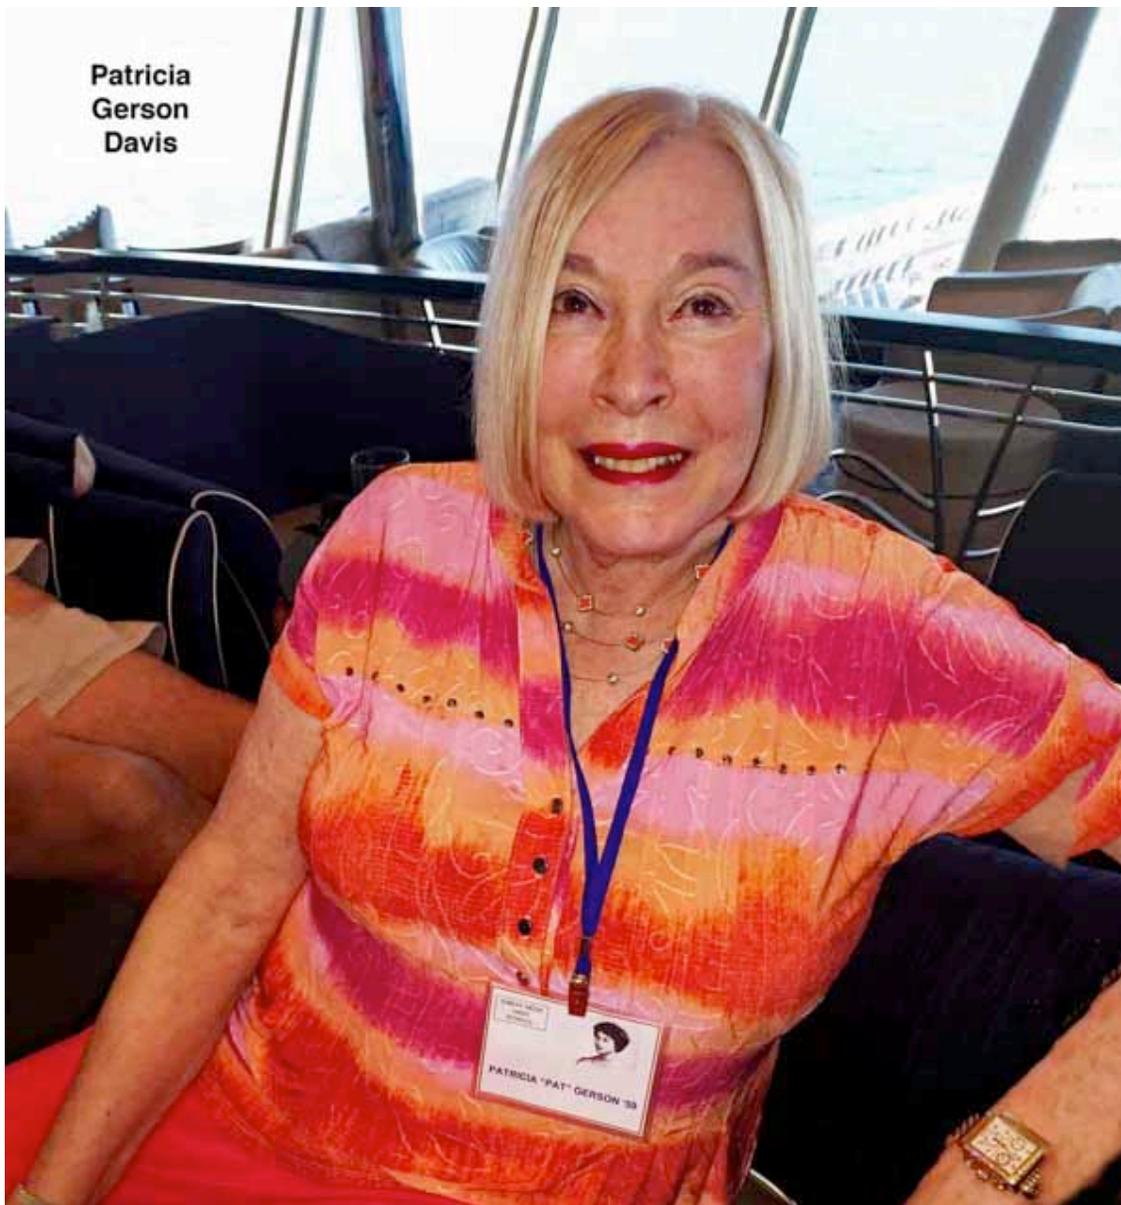

beloved class member Great Neck High School, '59.

Pat passed away from Covid-19 on Monday, June 22nd in Torrance Memorial Hospital. Her long-time husband Dr. Albert Isaac Davis died from the same disease on Thursday, June 18th. While Al had a rare form of Parkinson's and his death was anticipated, Pat was doing well and was expected to recover. Her death came as a shock to her family and friends. Both will be cremated and

check to her family and friends. Don will be cremated and a memorial service will take place sometime in the future at a more appropriate time.

Pat and Al are survived by their three sons, Mark and his wife, Jennifer, Larry, and his wife, Jill, and Steven and his wife, Fiona. They were devoted grandparents and will be sorely missed by their six grandchildren, Jake, Hannah, Josh, Mason, Aiden, and Riley.

PERSONAL NOTE: The most recent photo of Patricia Gerson Davis, shown above, was taken during the Great Neck High School Class of 1959 60th Reunion while onboard the Royal Caribbean's Mariner of the Seas cruise ship by Mike Arlow, your classmate and webmaster. Pat's recent demise, due to the Covid-19 virus, comes as a great shock to both my wife, Julia, and myself, as we truly enjoyed being with her during our 60th reunion cruise.

I wish to thank our classmate, Barbara Feit Goldberg, for assisting me with this unfortunate and untimely obituary.

*Respectfully submitted, with sympathy,
Michael S. Arlow, friend, classmate, and webmaster.*
